Seven Days Divine Principle Seminar for those who are candidates for participate in the Blessing Ceremony

he was a kind of person who has no confidence in witnessing.

But one time, his ancestors appeared in His dream very angry.

That ancestor was asking him why he is not proclaiming True Parents to his countrymen.

That dream continuously bothers him so much. So he was forced to start witnessing.

At first, for him it was very very difficult. But along the way when he keeps doing it then he found a way to witness.

From that moment he starts offering conditions. Every day he is doing 120 full bows, and also Reading Divine Principle loudly.

During his prayer he is calling all the True Children in the Spirit world, Jesus and 4 saints and the patriots in Costa Rica and all the good ancestors in the spirit world to join with him in his devotion.

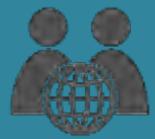

Through this devotion he could be able to get the support of the spirit world.

And because of that he can witness a lot of people until now. This kind of witnessing way seems like a simple way but if you cannot move heaven it is impossible to witness people.
