# True Mother's Journey of Devotion and Sincerity Toward Heavenly Parent

Gi-seong Lee, Cheonshim Won President,  
HJ Heaven and Earth CheonBo Training Center

**B**eloved and respected blessed families worldwide, True Mother, the substantial Holy Spirit and Only Begotten Daughter, demonstrated HyoJeong to Heavenly Parent by offering 1,095 days of mourning devotion on behalf of all humanity following True Father's cosmic ascension. True Mother gave us this example as she bequeathed her filial heart toward Heavenly Parent; and even today she continues to emphasize that earnest prayer at the Cheonshimwon, the international headquarters of jeongseon, is the crucial force in fulfilling Heavenly Parent's will and True Parents' wishes.

In the Cheon Il Guk era, second and third generations are experiencing Heavenly Parent's heart through Cheonbo training and Cheonshimwon devotions. They implement True Parents' will in their daily lives while receiving the grace of direct communion with Heavenly Parent. As more youth wish to serve after completing the 40-day HyoJeong Cheonshim Cheonbo spiritual workshop, the 'Cheonshim Spiritual Academy' was established. These members inherit True Mother's heart and offer their service for national restoration and in mission fields worldwide while immersing themselves in studying the Word to in hope to develop into Cheon Il Guk leaders.

On September 27, first, second, and third generations who experienced the heart of the Parent through Cheonshimwon devotion united and voluntarily initiated activities for the restoration of Gapyeong County, which True Mother earnestly desires, launching the 'Gapyeong HyoJeong Volunteer Corps.' Many community leaders, including the Gapyeong County mayor and vice chairman of the county council, attended the launch, expressing deep gratitude and encouragement.

On October 18, the '2024 Autumn HyoJeong Cheonbo Special Great Works' filled the HJ Global Arts Center, with around 100,000 people participating both online and offline worldwide. Transcending national borders and races, they offered an altar of devotion amid tears and cheers, hoping for a Heavenly Unified Korea and Heavenly Unified World. The Cheonshimwon special night devotion, which began with eight leaders on March 8, 2018, now has about 100,000 people worldwide building daily altars of devotion with one heart. True Mother's gift of the Cheon Il Guk culture of Cheonshimwon devotion spreads worldwide, like a drop of clear water becoming a stream, then a river, reaching the vast ocean.

Through daily Cheonshimwon special night devotions, we witness numerous miracles and experience the work of the substantial Holy Spirit. Members find new hope, solve problems, and their prayers grow stronger each day.

If we advance while becoming one with True Parents through Cheonshimwon devotion and realizing that Heaven's power is coming upon us with the Entrance into the Cheon Il Sanctum in Cheon Won Gung, we can lead Heavenly Parent's holy community. Now is the time to deeply engrave True Mother's lonely path of tears, remembering her moonlit promise to True Father, and advance toward the day of victory in unity with True Mother to fulfill True Father's will.

In this golden age of providence, as we march forward toward the Cheon Il Sanctum in Cheon Won Gung Entry Ceremony with both the spiritual world as subject and physical world as object, I pray that you will fully inherit the heavenly fortune and blessings that Heavenly Parent wishes to bestow through complete filial and loyal devotion. *℥*

## How to Establish a Victorious Standard

**T**oday, as we stand on the path of restoration, we must reflect once more on how many of our ancestors risked their lives on this path, yet failed and were mired in misfortune, ultimately disappearing into history. However, the standard of hope we should look to now, as we follow the path they walked, is not the national or state-level standard they sought. We stand before a global standard that can surpass these.

When we reflect on ourselves in such a position, the question "How should I proceed?" becomes inevitable. Historically, our ancestors failed to achieve the initial victory for God's Will, leaving behind a

sorrowful history as defeated people. Consequently, they are now subject to criticism rather than reverence. Where can we find the cause of this? It is found in their failure to establish a victorious standard by which they could always be one with God. Therefore, we must understand how to establish such a victorious standard.

And in practicing what you know, you must be gallant and confident. If there are those who oppose you, you must become brave enough to take them on and overcome them. Otherwise, all the standards you have painstakingly established in order to gain knowledge and put that into practice will fall into disarray. Therefore, when obstacles arise in your

path, you must determine how to establish and implement a plan to break through them in one go, using the capabilities you have built up and the results you have achieved. Only then can our mission and responsibilities be fulfilled.

So, why did our ancestors fail? On the path of restoration, they lacked the knowledge foundation necessary to reach the standard of completion centered on God's Will. They didn't know. Moreover, even what they knew, they couldn't apply. We must bear fruit as we practice, not practice first and bear fruit later. Therefore, practice requires training and discipline. No matter how much knowledge one has, if there is no practice, that knowledge is of no benefit. That is why knowledge and practice must be one. Only then can a relationship be formed. Since a relationship is formed when there is a counterpart, concepts such as 'relationship' or 'connection' cannot be established independently. Therefore, knowledge alone does not resolve everything. This is why training is necessary.

When entering a marathon, runners know the course they must follow, how long it will take, the distance, where to start, and which direction to run. At the start, all runners line up knowing that sometimes person A will run ahead, and sometimes person B will be in the lead. They also know where the point at which they must turn round is, if there is one, and where the finish line is. Everyone knows these basics. However, to achieve actual victory, what must we do? We must train ourselves to run faster than anyone else and reach the finish line before them. Without becoming such a person, we cannot be victorious.

We must act with our lives on the line. While

knowledge can be acquired over time, practice of our faith cannot happen without investing our lives. We must go to the point of victory even at the cost of our lives. It won't do to casually think, "I'll do it for a few days or years." This victory cannot be achieved without first restoring ourselves as individuals. There is a boundary line that we must go beyond. This is unavoidable. To transcend this boundary line, however, can you do so simply by transcending yourself? As mentioned earlier, even when restoring a nation, you do not do so by transcending the country itself. Instead, you must pass the world level to transcend it. In this manner, we must pass through the individual to the world levels.

### **How to Create Your Own Victorious Foundation**

People in the past failed because they did not know, but we must be victorious because we do. What we achieve must not be temporary but an eternally guaranteed reality. Where does eternity begin? It begins when we transcend the national level. Since the satanic world has surmounted the national standard, we must advance centered on the goal of national restoration.

Therefore, you should be able to stand in such a position in the service of God. You should be able to say that you will represent the nation and take responsibility for its difficult problems. If our Unification Church advances in this way, this nation can be restored through our church. We must undertake this responsibility. There are two aspects of your responsibility—in other words, while being concerned with establishing a victorious foundation that represents the whole, you must also fulfill your own mission. Only then can we build God's victorious foundation and complete our mission. Remember, hardships are your infinite assets. 7

## Day of Dreams

- June 27, 2020, HJ Cultural Center

After creating all things in the cosmos, God our Creator created the first ancestors of humankind, a man and a woman, and gave them a portion of responsibility for their period of growth. During this period of working to fulfill their responsibility, they should have grown in mind and body in oneness with Heavenly Parent like sunflowers [following the sun], until they reached the position to receive Heavenly Parent's Blessing. However, they could not fulfill this, and the result is today's fallen humanity.

The eternal Heavenly Parent could not abandon humankind and all things that he had created to exist for eternity, and then create them again. Therefore, since the fall of our first ancestors, Heaven has been conducting the providence of salvation through indemnity. How difficult this must have been that it took 4,000 long years! It took 4,000 years for Heavenly Parent to send Jesus Christ on the basis that all that was wrong was restored through indemnity beginning from the individual level, and of whom Heavenly Parent could say, "This is my son who has nothing to do with fallen humanity." Though Jesus Christ, the original Only Begotten Son unrelated to fallen humanity came, ultimately he could not fully realize God's will. Having said that he would come again he died on the cross. He spoke of his Second Coming.

God could not bring about the birth of the Only Begotten Daughter through the people of Israel, who could not complete their responsibility. So Heaven

found and established the Korean people, a good people, and the most devout in their service to God among humankind. However, Korean history also has many ups and downs. Even though they never invaded other nations or engaged in taking from others, they went through many difficulties. After 6,000 years, in 1943, through this people with a Christian background, Heaven brought the Only Begotten Daughter to be born!

Heavenly Parent's dream is to become the True Parent of humanity. Heaven sought to realize this on earth through the True Parents. This is Heavenly Parent's dream and also True Parents' dream.

Furthermore, though all people fell into ignorance due to the Fall, because their hearts yearn for peace, this is also humanity's hope and dream.

We must attend Heavenly Parent on earth by fulfilling Heavenly Parent's dream and True Parents' dream. As children of love, joy and glory, we must say that we have fulfilled the original dream that Heavenly Parent has longed to see. Creating such a kingdom of heaven on earth must surely be the hope of True Parents, but also of the blessed families, especially your second and third generations.

## **Record a sincerely written journal that will remain for history and for future generations**

- April 26, 2021, Cheon Jeong Gung

Through the victory of the Cheon Il Guk era 7-year course, I proclaimed the firm settlement of Cheon Il Guk. And I have bestowed grace upon the blessed families to be registered as CheonBo families. CheonBo families cannot stop after just one generation. They should expand that environment. Who should embrace the 7.8 billion people of the world? Who should guide them? The citizens of Cheon Il Guk who were chosen as children of the True Parents and Heavenly Parent must rise up and embrace them.

## **Living for the sake of others with absolute faith, absolute love and absolute obedience**

- March 22, 2013, Cheon Jeong Gung

Our mission now, in this age, is to restore all the people of the world, as citizens of Cheon Il Guk, to God who has opened Cheon Il Guk for us. From now on, there can be no failure in your lives. Our only path is to succeed. Can you all promise to become victors before Heaven and before all of humankind? Please put this into practice beginning with your families. I want to establish each of you in a position where you can say you contributed to this great cause according to your circumstances.

## **Let us advance toward our goal**

- November 1, 2013, Cheon Jeong Gung

Though we are somewhat late, we will soon begin a large project in Cheongpyeong. I want to help everyone by building a museum exhibiting True Parents' life course. It will be a museum of history, recording the providential history that shows how much True Parents loved God and humankind, and put this into practice and took action. How do you think Christians will feel when they see it, once it is built? When people enter the museum, how regretful will they be? They will feel regretful, saying, "Though I lived at the same time as these people, why didn't I know? How could I be a child who doesn't know his parents?" They are the parents of humanity, so how can there be a child who doesn't know his parents? You must all participate. You absolutely must complete this museum of True Parents' life during your lifetimes.

## **Become pure water that settles Cheon Il Guk by resembling True Parents**

- January 6, 2017, Cheon Jeong Gung

I have long thought about various ways to convey hopeful news to them. Creating an environment is not easy. No matter how difficult or poor your circumstances may be, you have some responsibility. If I asked you to create an image of the kingdom of heaven on earth, how would you depict that? First, you need to express the joy that wells up from your heart through your body. This can be expressed through dance, music, or art. It must not just be your own feeling but something that everyone can share. Creating such a world is True Parents' dream.

When dealing with 7.4 billion people, not only True Parents but all of you should participate in spreading True Parents' dream. Thus we must quickly build the kingdom of heaven on earth that can fulfill Heavenly Parent's dream, True Parents' dream, and your dream. Until then, there will be many obstacles to overcome. But as long as I am here and you are here, we can do it! Rather than living just for ourselves, we must bring Cheon Il Guk—which has been given to us as a blessing—to firm settlement. This is the kingdom of heaven on earth. 

# True Mother Visits Begonia Garden in Gapyeong

*True Mother hopes that our lives of filial love for Heavenly Parent will become beacons of hope for the world. Mother is developing HJ Cheonwon into a restored and completed Garden of Eden—a model of heaven on earth. True Mother is building the model of a community of one family of humankind, where people of all races care for one another and experience great joy, happiness, freedom, and peace.*

**O**n October 9, 2024 [7.9 by the heavenly calendar in the 12th year of Cheon Il Guk], True Mother visited Gapyeong Begonia Bird Garden with members of True Parents' family/True Family members, Cheon Il Guk leaders, and Heavenly Korea pastors. She is leading the establishment of HJ Cheonwon as a holy place that conveys Heavenly Parent's heart.

## True Mother's Message

*The Creator Heavenly Parent's dream is to live on earth with his children, together with True Parents who would bring that dream to fruition. To achieve this, Heavenly Parent created all things in heaven and earth in pairs, in the original image. In the beginning the earth was very beautiful. Since the natural world God created did not fall, it is only fallen humankind that causes the many problems. The issue is, we should be attending Heavenly Parent in the original environment of the creation. It breaks my heart that this is not our reality. We must do everything possible to quickly achieve national and global restoration. We should bring together all heads of state and collectively declare, "Let's save our planet Earth!" You should feel this even more deeply as you take in this beautiful environment.*

On this day, True Mother emphasized the importance of HJ Cheonwon as the place where Heavenly Parent's dream is realized.

Hanju Group CEO Yu Gwang-hyeon than gave a report on the progress made in preparing for the Entrance Ceremony for the Cheon Il Sanctum in Cheon Won Gung, and in developing the environment of the Gapyeong Begonia Bird Garden to make it a central location for bringing about the ideal of one family of humankind.

True Mother expressed her hope that Gapyeong Begonia Bird Garden would become a blessed place that contributes to the fulfillment of Heavenly Parent's will. Mother took commemorative photographs with the participants, and they shared a meaningful time together.

This visit marked an important turning point in establishing HJ Cheonwon as a model of heaven on earth, a place imbued with Heavenly Parent's heart where humanity can live together in peace. 

*HJ Cheonwon represents the Heavenly Garden.  
The 6,000-year history of the providence of restoration through indemnity is like a long winter night.  
After 6,000 years, through True Parents, we have finally welcomed springtime  
when Heavenly Parent's dream, True Parents' dream, and humanity's hope can be realized.  
This is indeed that time. The Cheonwon Complex will evolve daily and yearly.  
When you come here, you will be able to see and experience the fulfillment of  
Heavenly Parent's dream and True Parents' providence.  
Then, what must you do in creating Heaven on Earth  
that fulfills Heavenly Parent's dream and humanity's hope?  
With this purpose in mind, study hard, give your highest effort in your assigned tasks,  
and contribute to the development of the Cheonwon Complex.*

*(February 5, 2017, Cheongshim International Youth Center)*

*Cheongpyeong is a holy site and the capital of Cheon Il Guk. You are honorable citizens of Cheon Il Guk. With pride in who you are, confidently declare your identity to the world. Many religions worldwide were founded to promote a virtuous and kind way of life, but they lack an understanding of their endpoint or destination. Therefore, as True Parent, I am developing the Cheonwon Complex to show humanity, "This is what a place looks like where the citizens of Cheon Il Guk live attending Heavenly Parent."*  
 (November 4, 2017, HJ Heaven and Earth CheonBo Training Center)

*HJ Cheonwon is the HJ Garden of Eden, the HJ Heavenly Garden. Its purpose is to show humanity what heaven on earth, the Garden of Eden of Heavenly Parent's dream, looks like. People living here must achieve a state without shadows and become united. United in heart and will, we must bring joy and praise to Heaven. We must do our utmost to create the one world that Heavenly Parent desires.*  
 (July 1, 2016, Cheon Jeong Gung)

# Special Audience with True Parents of Heaven, Earth and Humankind for Peace Unification Federation Leaders

*A special audience with the True Parents of Heaven, Earth and Humankind for Peace Unification Federation leaders was successfully held on October 16 at Cheon Jeong Gung. 39 leaders, including President Kang Kyung-hee, who were in Korea for training to pray for North-South unification, attended this special audience.*

**T**his event was organized as an opportunity for the Korean Residents Union in Japan (Mindan) and the General Association of Korean Residents in Japan (Chongryon) to pledge harmony with Korea and convey the vision of Heavenly Unified Korea and a heavenly unified world. On this day, True Mother delivered precious words urging everyone to become more united to expand the providence so that Heavenly Parent's dream and True Parents' ideal can be realized.

## True Mother's Message

*I know you have worked hard until now, but Japan's responsibility with regard to the North-South issue is important.  
 From the perspective of Heaven's providence and True Parents' providence, the communist world should not exist.  
 You need to understand this. That is why you must teach the Japanese people.  
 The Only Begotten Daughter is realizing the completion of the providence.  
 You must carry out your activities such that I can say  
 "You are my beloved sons and daughters in whom I believe."  
 While I am on earth, you must become one with me and expand the scope of Heaven's providence.*

The Peace Unification Federation is an organization established by True Parents on July 4, 2004, and is the only such organization that exists in Japan. Under the banner of realizing peaceful unification between North and South, this organization, centered on Japan's Mindan and Chongryon, is carrying out various activities to achieve peaceful unification transcending nationality, ideology, and organization, based on the fundamental spirit of Godism and true love.

Celebrating its 20th anniversary this year, the Peace Unification Federation, centered on its 9th President Kang Kyung-hee, is focusing on six major activity directions to spread the peace unification movement of the Republic of Korea and North Korea worldwide.

The six major activity directions are as follows: Movement to unite Koreans in Japan / Movement to enhance ethnic identity / Movement to promote North-South peaceful unification / Movement to promote Korea-Japan friendly exchange / Overseas Korean unity movement.

Through this homeland training, the Peace Unification Federation shared the vision of North-South unification, explored future activity directions, and pledged to take one step further on the path of peaceful unification. They visited Imjingak in Paju, Mangbaedan, DMZ Crane Peace Town, Cheorwon Peace Observatory, and the 2nd Tunnel.

# Global Journey of Heavenly Top Gun Missionaries and ChamBumoRon Education

Missionary Moon Shin-heung explained, in his lecture on Heavenly Parent, that understanding God as Heavenly Parent is the essence of truth. He emphasized that Heavenly Parent is the sole parent of humanity and that it is vital for us to realize Heavenly Parent's divinity through the created world and to restore our relationship with Him. 

# FFWPU Heavenly Korea: Major Changes Under President Hwang Bo-guk

## 13-District Restructuring and Special Assemblies for CheonBo Families

Since his inauguration as the 20th President of the Family Federation for World Peace and Unification (FFWPU) in August, Hwang Bo-guk has implemented significant changes and shared a new vision for the organization.

Hwang has restructured the organization into 13 national districts and conducted special assemblies for CheonBo families. During these gatherings, he conveyed recent messages about Heavenly Parent’s providence, as emphasized by True Mother, and explained the vision for the newly established FFWPU of Heavenly Korea.

In his assembly speeches, President Hwang highlighted True Mother’s teaching: “The Cheon Il Sanctum is the main temple, local churches are branch temples, and blessed families become substantial temples.” He stressed the importance of aligning family values with Heaven’s will, stating, “We must set standards by aligning our lineage, possessions, and heart issues according to Heaven’s will so that Heavenly Parent can dwell in our families as substantial temples.”

Hwang compared churches to ‘warships’, urging them to “carry out God’s operations 24 hours a day and dedicate themselves to the nation and world.” He drew an interesting parallel between the new 13-district system and Admiral Yi Sun-sin’s famous 13 turtle ships, suggesting that these districts would be “13 powerful and influential warships that will protect God’s nation.”

The President also shared strategies for the successful opening of the Cheon Il Sanctum of Cheon Won Gung. He emphasized that “If we invest our sincerity and work to establish family churches that resonate with the heart of Heavenly Parent and True Parents, we will meet a day of jubilation and joy.”

A special feature of these assemblies was the presentation of merit plaques to individuals who had dedicated themselves to the successful opening of the Cheon Il Sanctum of Cheon Won Gung. President Hwang presented these awards on behalf of the True Parents of Heaven, Earth, and Humankind.

The special assembly tour began on September 1st at the Seoul Cheon Won Gung Cheonseung Church and continued through various districts until November 3rd, covering major regions across Korea including Gangwon, Gyeonggi, Gyeongsang, Chungcheong, Jeolla, and Jeju. [☞](#)

# Ceremonial Attire and Cheon Il Guk Gifts

---

*True Parents emphasized the importance of ceremonial attire for the historic completion of the Cheon Il Sanctum in Cheon Won Gung, where Heavenly Parent will be attended on earth for the first time in human history.*

---

*The Era has opened wherein we can live in attendance to Heavenly Parent on earth.  
When we dedicate the Cheon Il Sanctum, don't you think those  
who will offer their bows will need proper attire for the Dedication Ceremony?  
This is why I have started making ceremonial robes.  
Leaders and people who participate in important events need ceremonial robes.  
When the time comes for the dedication of the Cheon Il Sanctum, we need to make it a place  
that people from all over the world would want to visit, a place they need to visit.  
It will be the greatest holy ground, which we will remember throughout our lives.  
It is the Garden of Peace, the Palace of Peace.*

**F**amily Federation ceremonial attire has been worn at all major ceremonies, including the 8 major holy days, Seong-il, 3-day ceremonies, child dedications, Seonghwa ceremonies, and Blessing ceremonies. It symbolizes the identity and orthodoxy of the Family Federation and respect for Heavenly Parent.

True Mother instructed Kristina Han to prepare for the Entrance into the Cheon Il Sanctum in Cheon Won Gung, establishing traditions for ceremonial attire and gifts befitting Cheon Il Guk citizens.

### Cheon Il Guk Ceremonial Attire

Cheon Il Guk ceremonial attire is divided into tuxedos for men and dresses for women. True Mother designed the ceremonial attire with purple, symbolizing Cheon Il Guk, and daffodils as motifs.

The men’s ceremonial attire basically consists of a jacket, pants, shirt, bow tie, and handkerchief. True Mother determined all the details, including the fabric, shirt, and buttons.

The ceremonial attire has a common style without distinguishing between married and unmarried individuals. The suit lapel shapes are divided into peaked and shawl collars. The purple bow tie and handkerchief were made to create a sophisticated appearance for the Cheon Il Guk ceremonial attire.

The women’s ceremonial attire consists of a classic dress and a purple amethyst gift set. True Mother provided detailed guidance on everything from the dress fabric to the length, proportions, and shape.

The dress is made in white, symbolizing joy, glory, purity, and peace. Considering a form that can be worn sacredly worldwide, daffodil lace was added to create a sophisticated and luxurious feel.

### Symbolism of Cheon Il Guk Gifts

The Cheon Il Guk gift ring has purple amethyst as its motif, symbolizing royal authority, glory, and nobility. The ring signifies the realization of the ideal blessed family.

The gift set consists of a necklace and earrings made with purple amethyst, and it was produced in three different designs: the Cheonbo set, the Cheon-Un set, and the Cheonshim set.

The purple amethyst, which represents the status of Cheon Il Guk as a gift, brings emotional stability and peace of mind.

These gifts and ceremonial attire further emphasize the importance of the ceremony for the Entrance into the Cheon Il Sanctum in Cheon Won Gung, and they will become symbols expressing reverence for Heavenly Parent and True Parents.
