

Down Home Inn

The Down Home Inn is located on the south face of the New Yorker Hotel, a landmark structure in Midtown Manhattan on 34th St. and 8th Avenue. The ideal seminar situation, everyone has a chance to discuss their basic ideas about life and existence. Unification Church members are eager to explore your views and to expand their own. Building an ideal world together means every person must be able to express themselves freely and confidently, moving forward towards a better understanding of their true, God-given natures, their love and perseverance.

At the Down Home Inn you may run into a sister from Jamaica, a brother from Nigeria, or a farmer from Finland. The possibilities for friendship and experience are endless. The Unification Church is creating a society of world citizens with the potential of ending suspicion and fear worldwide. Real people from every culture, with real feelings and hopes, are waiting to get to know you, and to include you in the warmth and stimulation of genuine sharing. 2-day and 7-day workshops are available, if you become interested in learning more about Rev. Moon's inspiration for man. The seminar schedule for Mon./Wed./Fri./Sat. is 1:00 Lunch, 1:30 Registration, **2:00 Last Days**, 3:00 Snack, 3:30 Registration, **4:00 History I**, 5:00 Registration, **5:30 History II**, 6:30 Dinner, 7:30 Registration, **7:45 Creation**, 8:30 Registration, **9:00 Fall**. On Tues./Thur./Sun. the lecture schedule rotates; **2:00 Last Days**, **4:00 Creation**, **5:30 Fall**, **7:45 History I**, **9:00 History II**.

Stop at the Down Home Inn any evening for one of the best experiences NY City has to offer.

Rev. Sun Myung Moon

At the age of sixteen years, Rev. Sun Myung Moon received the revelation from Jesus that he is to complete Jesus' unfulfilled mission of halting the insane misery of this world and is to restore it to one of joy and creativity.

Through enormous suffering in Communist prison camps during the forties, and then religious persecution, he worked steadfastly to accomplish this ultimate purpose. Today, the Unification Church is a growing, vital group with an investment in man's future, and an absolute faith in the heart of God.

What is your experience of happiness? If you are like most people, your family life fell far short of your needs and expectations. And the jobs and relationships society offers you today most likely lack that internal spark you seek.

What's missing is a scientific understanding of the way we fit into the universe, and the true heart of joy and strength to bring real happiness to our lives. And Rev. Sun Myung Moon, through his complete development of universal truth, and a logical explanation for the spiritual suffering of man, offers you the tools to become a person of love and ideals, perfect in joy and peace.

The Divine Principle, his unique expression of God's desire for man, is given daily in lectures at the Down Home Inn (34th St. east of 8th Ave.) or the 43rd Street Center (4 West 43rd St.).

23. World's Fairground
7 to Willet's Point
24. World Trade Center
AA, E Downtown to Last Stop

The things to see and places to go in the world's meeting place.

43rd Street Center

the Unification Church

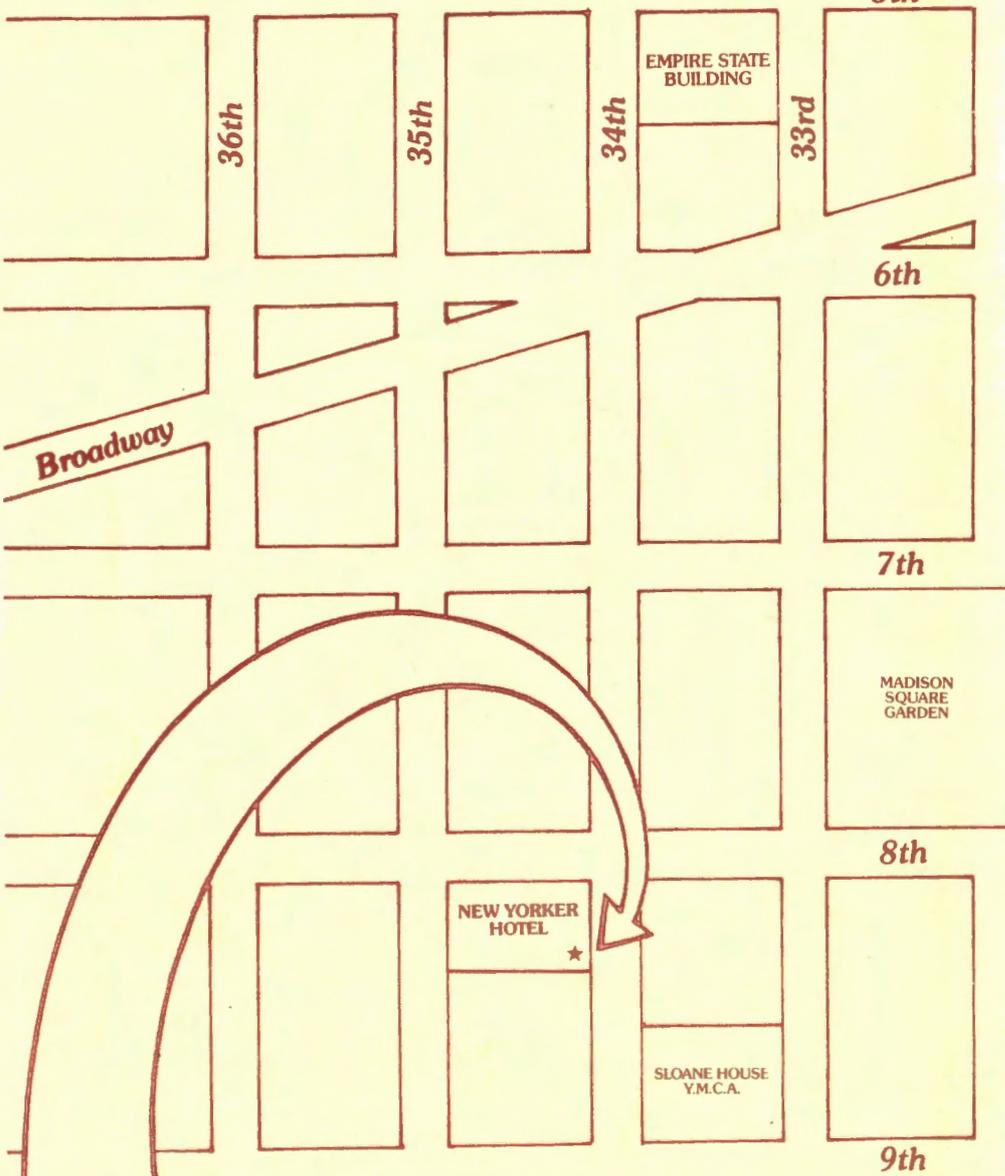

The flagstaff center of the Unification Church, 43rd Street is an exciting, embracing experience of people with new understandings of life and joy. As humans, occupying a unique position in the universe, we need an enriching atmosphere of nourishing love so that we can reach new levels of feelings and appreciation. The 43rd Street staff is prepared to help you develop a powerful grasp of universal truth, while building a spiritual foundation in which your emotional being can take root and re-grow into strong, creative love.

What kind of risk are you willing to take? Most of us today don't have the courage, or the faith in our beliefs to openly interact with new ideas and with brothers and sisters who challenge our honesty and depth. The fact is, happiness is a goal of all of us; yet, it actually requires the willingness to explore the conflicts in our individual lives and in our world, on a national level. Why can't we, as potentially creative, joyful beings, unite and turn this world upside down, end hunger and suffering now, for every man, woman and child?

At 43rd Street the answers are there, and the hope and faith are there. So come over, explore your highest potential! The center opens for dinner at 6:30, with an introductory talk about Rev. Moon's vision of human nature and universal harmony. Bring one dollar, your heart and an open mind.

New York is a hustling town.

Don't be shy—
New York likes razzle dazzle,
yet you don't have to be
off the wall.
