You're worth waiting for and so am I

WAIT UK is a non-profit organisation that raises awareness about HIV and AIDS internationally. We work to educate the youth about its transmission and its devastating effects on health, life and society; we also aim to inform them of the various and most effective ways of preventing the infection, thus giving them the choice to make an informed decision for a positive lifestyle.

WAIT (Washington AIDS International Teams) is comprised of a group of young people, who work together to create performances. We are a proactive and dynamic peer education project, aimed at preventing the spread of HIV through delaying sexual activity, and inspiring young people to live a healthy and ultimately satisfying lifestyle.

## What We Do

Much of the education which we provide is achieved through the performing arts. With songs, dances, sketches, speeches and games, WAIT teaches the facts and encourages youths to focus on their talents and dreams rather than making risky choices. Our message of respect for ones body and respect for others is carried through the atmosphere of creativity, enjoyment, hard work and appreciation.
