

We are looking to spread the word as more as possible

Remi Blanchard

Beirut, Lebanon

In this month we were looking to spread the "word" as much as possible. 150 Introduction and Chapters of the Divine Principle were sold, 29 people are reading the Divine Principle book, 10 persons bought it, 3 people have read the book completely. In fact we are contacting 12 people who are giving interest to the Family.

In this action we meet several problems like: one boy giving out invitations at the door of a Church suddenly was surrounded by a lot of people. One of the Church leaders pushed him away with big accusations. Because of the traditional family life in this Arabic country, we had several experiences with parents thinking we were taking their children away. The one who wants to accept the Divine Principle has to really follow our Master and to decide as our Korean brothers and sisters have done.

In the American University we were cast out, because we spread the truth too openly. So it was necessary to go door to door to continue action in the city. We feel more the loneliness of our Heavenly Father.

Through any conditions we are willing to give back to our Master his lost children. How much Father did to build the Foundation! That we can never know completely. MANSEI!
