

Complete Your Pledge to the Hyojeong East Garden Museum

Richard Buessing
December 27, 2017

It has now been over a year since True Mother's dedication of the Hyojeong East Garden Museum on December 6, 2016. This past year, the museum has provided the opportunity for anyone to relive True Parents' work in America. As we approach 2018, the National Ministry Team invites anyone who made a pledge or wants to contribute to the maintenance of True Parents' history in America to donate to True Parents' history museum.

At the museum's one-year anniversary celebration, Dr. Michael Mickler, the newly appointed Director of the SunHak History Institute, USA, detailed the various achievements and progress of the Hyojeong East Garden Museum. He noted how the old kitchen was transformed into a beautiful office for visitors to receive refreshments, as well as the numerous special guests that came to the museum to experience True Parents' rich history in America.

Among the various visitors over the year included members of the Korean Collegiate Association for the Research of Principles (KCARP), leaders of Tongil Group, Unificationists who were missionaries for the movement in 1975, recipients of the Outstanding Family Award, and students from Sun Moon University. Watch the gallery above to see the various visitors who came to see the Hyojeong East Garden Museum!
