August 2, 2014

On August 2 the '2014 CheongShim Music Festival' which is one of the biggest music festivals held in Korea was held at the CheongShim Peace World Center.

CheongShim Music Festival has been held for 9 times and until now top artists such as Women's Generation, BEAST, Cheon Park, Insuni and other Korean pop singers have sang on the stage of the Music Festival. It is also a long awaited concert for many 2nd generations who come here from all around the world.

This year we invited many more famous singers which made a huge buzz in the media even before it was held. The artists were introduced by Ji-hun Kim and Sun-yeong Han, KARA, who were the main emcee. The performing artists include the magician Hyo-nu Cheo, B1A4, VIXX, Sista, Eilie, Hui-seong and Ulala Session. Every time each artist came to the stage the 20,000 people who filled up the center roared with joy.

Starting with the 300 Japanese 2nd generations, currently attending a workshop, there were also around 3,000 Korean students who were also attending a 3-day workshop at Cheong-a Camp and many International 2nd Generations also were among the other participants of this day. The students were able to sit very close to the stage by the consideration from Heung Jin Nim and Dae Mo Nim.
