

## Great Grace of the Prayer at the Tree of All Things

Dae Mo Nim  
October 25, 2014

After attending the Special Holy Burning Ceremony the members started to move to the Tree of All Things. The path up towards the Holy Ground became a great ocean of people and moved like a great wave. It symbolized the great passion that members have to fulfill the great Will of God to complete the providence.

Leaders and pastors from around the world and Heung Jin Nim and Dae Mo Nim gathered at the plaza around the Tree of All Things. The path from the Tree of Love and to the Tree of All Things was filled by members wanting to receive the grace of Blessing of All Things.

At 9:30 pm, Rev. Myeong-gwan Lee, Director for Planning and Education Department (former) started the Prayer at the Tree of All Things. Then Rev. Yong-cheon Song, President, FFWPU Japan offered a report prayer.

'We are happy people living in this era receiving abundant blessing of all things as we are spiritually cleared, physically and heartistically purified with the help of our ancestors. Father, please do your works so that we could fulfill the 3 great blessings and create a happy family, healthy church and become blessed central families who could lead this people and the world.'

True Father's Words and Prayer for the understanding of Heart for the All Things

Then Rev. Kyeong Seuk Lu, President, FFWPU Korea read True Father's words.

**'The clothes that you wear, the things that you own are parts of the All Things of Creation. That is why you cannot look at them as things that just stay around in your own little realm. You have to look at them as the reduced All Things of Creation of the physical world and live a life of praising its value to the world level. Through that you consider your own life as a part of an offering and centering that environment you need confidence that God can reside with you at any given time. If you do not have this standard then you have to understand that the family foundation of a true all things cannot be established.'** (Words of Moon Sun Myung, Volume 23, Page 330)

Then Rev. Lu read father's benediction during the 8th Day of True All Things on June 4, 1970.

**'Please understand that the problem lies to the person where the All Things of Creation could follow and if that person could follow and attend True Father.**

**Please understand that the All Things of Creation wants you to be a true person and take control of them. Please let them become your beloved sons and daughters who could love the world and love all things of creation. Let them become sons and daughters who will understand the deep value of all things of creation more than anyone on this earth and take good care of it as well.'**

We were able to know the heart of True Parents for reflecting the true meaning of having a relationship with the all things of creation.

Then, through the holy candle which was prepared at the prayer room Dae Mo Nim bestowed it to the members from all around the world. The candle light was passed from one person to the other and eventually created an ocean of light, symbolizing that God's Will will be conveyed to the world creating an ideal nation of Heaven of true love under one lineage.

Then the members had a time to offer a unison prayer. Through this sincere prayer the members repented their past and promised that they will reborn in front of heaven and to fulfill their position as the son and daughter of receiving eternal grace of blessing.

Then Dr. Chung-shik Yong, Special Emissary for FFWPU-Asia, offered 3 cheers of eok-mansei which ended the Prayer at the Tree of All Things in a pleasant atmosphere.
