

Haunted Church Centers - Shouting the Divine Principle in Every Room

John Doroski
October 19, 2017

In the Philippines in almost every new city we pioneered we could not find a place to rent for a center, everything taken by a large population, then it always occurred we would finally find a vacant house and we set up a church center only to learn later that the reason each place was vacant was because they were haunted... amazing phenomenal.

I then used a technic from Barbara Burrowes [van Praag], reading/shouting Divine Principle in every room and front and back yards for many days.

So cool and powerful, the spirits either ran for the hills or learned and resurrected and there no more phenomena.
