

CARP USA News: North Lake CARP, Dallas, TX hosts end of year retreat

Jinil Fleischman

May 24, 2020

Though the COVID-19 pandemic has made it more difficult to organize activities as normal, CARP students have been more eager than ever to further their understanding of the Principle.

On May 23-24, the North Lake CARP chapter, based in Dallas, TX, held an online Principle seminar based on the teachings of CARP Founders Father and Mother Moon.

A small group of the club was able to gather in person while many more joined virtually.

Under the mentorship of a parent volunteer, the student leaders themselves gave the presentations on the Principle.

It was a moving and eye-opening experience for everyone who attended, especially those for whom it was their first Principle seminar.

We look forward to the next CARP event in Dallas!
