

Colombia's First HTM Workshop and Blessing in the cities of Medellín and Bogotá

Dae Hee Hong
April 11, 2019

We held a Heavenly Tribal Messiah workshop and blessing for the first time in the cities of Medellín and Bogotá.

With group work of our blessed families in both cities, we invited about 70 people. Among them, there were 22 previously married couples who barely knew our movement received the Blessing. The newly blessed families were inspired and so they promised to support the work of heavenly tribal messiah among their families and relatives. In addition, our Ambassadors for peace wants to bring people from their contacts to the blessing.

This event was a powerful energetic event for our blessed families, helping them to revive their spirit and heart and understand True Parents direction for the Tribal Messiah's mission. Therefore, there are more people and more families who wishes to fulfill their mission as heavenly tribal messiah and in involve in some other activities, which we planned already in other cities in our nation.

We hope these activities bring many blessings to people and at the same time, give great joy to Heavenly Parents and True Parents.
