

## Presentation on Natural Medicine at a Health Seminar Organized by UPF Denmark

Nobuhiro Igarashi

April 4, 2019

Health Practitioner, John Osei Tutu from Ghana gave a presentation on natural medicine at a health seminar organized by UPF, Denmark.

John Tutu explained why cancer can develop and how to cure it in internal and external ways, also emphasizing the importance of faith in combatting many diseases.

He also advised us which kinds of plants, vegetables and herbs are most effective against cancer and other diseases, and how to use them.

It was a very interesting seminar, and we could all improve our knowledge greatly.
