*Morning Devotion with Dr. Chung Sik Yong - Episode 93 - January 26, 2021*

It has been 100 days since I have been attending Dr. Yong Morning Devotion and I tell you, and praise God, because of these Morning Devotion sessions, I became a new man ! Dr. Yong revolutionized, my heart, my mind and my understanding of God.

First is that, God is a sorrowful and grieving God, Human history has been God's history of grief and sorrow to save human beings-His Children. But most important of Dr. Yong talks is that God is our Parent who's been searching and seeking to establish intimate and personal relationship with human beings as His sons and daughters..

It is not enough to believe conceptionally that God exists, or that God is an almighty God Etc. The greatest thing that moves God's heart the most is when you believe that God is your Parent and that you become a filial son or daughter of God.

Just as Good parents love and long to see their children when they are away. God has been longing to see and embrace you, hug you and kiss you and tell how much He loves you and misses you.

It is so powerful and true this is!
