This photo reminded me of a powerful vision I received during IOWC witnessing campaign, back in 1982-3. And like many profound experiences that I treasured, this vision never gone out of my mind.

The Vision

I was in a conference room attending Father Moon's speech. I was sitting towards the 3rd row, I believe on the right, standing talking to a person next to me, Father and Mother Moon were sitting in the front. Sudden, on the stage, a loud announcement came on the speaker phone introducing very special guests. And it started.

The prophet Abraham and out of the ceiling a white smoke began to descend, and as it descends the smoke transforms into a human shape and Prophet Abraham in full body appears in a white robe. And as in Abraham, come Moses the same way, out of the white smoke, and after Moses came Elijah and when it came to Jesus, the announcer said "this is Jesus the son of God", and Jesus came on the platform of the stage and all four special guests stood on the stage.

The vision reminds me of the Mount of Transfiguration in the Bible (Matt. 17:1-8, Mark 9:2-8, Luke 9:28-36). It was an indescribable vision in words. I believe all the Prophets of the Old Testament came down to witness and give their approvals to Father and Mother Moon as the lords of the Second Coming.
