Participation in a special Evening for Couples at an Evangelical Church

Church “La porte du Nord Globale”, Brétigny, France, 2. November 2013

Rev. Ben MANUA and his wife, Hortense, participated in the ILC in Korea last August. Rev. Ben paid much indemnity during the ILC with a leg problem that caused so much pain that he had to use a wheelchair. When he returned to France, the problem vanished.

He invited us to the special annual meeting for couples of his church and this year he invited some ministers from other churches, including ours. Ten of our Blessed Couples could participate.

We were surprised when he offered us the opportunity to speak for 20 minutes. Therefore, Jean-François Moulinet could speak on “True Families to Heal the World” and even proposed that this church participate in the next Blessing. Since this event Jean-François has exchanged messages with Rev. Ben and one of the other leaders of this church and they both seemed to appreciate what he shared and Rev. Ben would like to have Jean-François' text and the PowerPoint to study more deeply.
