

10th Camp of Brittany :

« Devotion for Ocean Providence »

St-Jacques, Sarzeau, France, Jean Francois Moulinet, 29th July to the 4th of August 2019

For this 10th edition of the summer camp of Brittany, 47 people from all around France and from Switzerland met in a beautiful landscape.

They could create love bounds with each other and with God, True Parents, the Ocean and Nature.

4 crews were established in the spirit of the universe of the famous manga "One Piece"; they could all unite to do the camp tasks and activities.

The schedule was flexible with a holiday atmosphere and diverse activities of cohesion and entertainment. Tournament of soccer, molkı and yut, the challenge day, nautical activities (kayak and paddle), fishing from the shore, visit of an oyster-farm, a funny and tough quiz, a fire camp with an evening prayer, a treasure hunt, 4 different discovery workshops (Dancing Salsa, massage with a physiotherapist, making sea-candles and learning True Father daily stretching).

We started and ended everyday with HDH reading about Ocean Providence, sharing about True Parents words and praying. Thus, we could establish a good standard and tradition, hoping everyone will carry on!

We've been fortunate to have awesome lecturers: Patrick Jouan, André Blévin, Francesco Colléter and the national leader of France, Jean-François Moulinet.

A big thanks to all the staff who made this event possible and successful : Thierry, Wen et Thomas Martin, Patrick, Yann-Gé et Lauren Drevici, Francesco, Sam, Nayeon et Mont-Lang Colléter et Gisèle Girabana.
