

Dr. Katzumi Otsuka, European UPF President and Special Emissary to Europe, visits Vienna

Vienna, Austria, 17. September 2017

By Elisabeth Cook

Dr. Otsuka participated in the Inauguration of the Parliamentarians for Peace in Vienna, Austria. He was one of the speakers in the first session of the conference, which took place at the UN building of Vienna. In his speech, he gave an insight into the UPF Founders' philosophy of peace and described some practical projects that have been launched for peace and reconciliation, such as the Korea-Japan Undersea Tunnel. He expressed his hopeful perspective for the future by stating that "the economy of 2030 will be the economy for the sake of others!" (Read the full report of the conference here: www.weltfriede.at)

On Sunday, Dr. Otsuka gave the sermon at the Sunday Service of the Vienna Unification Community on the topic "God

prepared everything for us beforehand", giving examples of how our Heavenly Parent guided him in fulfilling various missions during his life in the movement.

After lunch, he met with the Japanese members who had come from all parts of Austria for this meeting.

We could spend a beautiful day with Dr. Otsuka and we are very grateful to Heavenly Parent and True Parents for sending him to the European region.
