True Mother:

This year, the 11th of Cheon Il Guk, which sees the conclusion of a 10-year cycle and a new beginning, is the year of the black rabbit filled with indescribable delight and joy **in which the providence unfolds substantially on earth together with the dream and wish of the Creator, our Heavenly Parent and with True Parents.**

Like a rabbit, be industrious and fruitful. This is the year of an intelligent, well-loved animal that people cannot treat thoughtlessly.
