Marking the occasion of the Int'l Day of Peace (21 September annually), WFWP Bergamo/Italy dealt with the topic of peace in the home, with a lecture under the motto 'When he and she argue with each other...Let's make peace in our family'. This took place in Hotel Donizetti in Bergamo on 5 Oct 2018.

WFWP Bergamo President Giannina Figus introduced WFWP as well as the host speaker, Dr. Onorina Gibi, psychologist and family psychotherapist.

Dr. Gibi explained about emotions such as resentment, grudge, guilt, disconnection, and how these feelings can destroy the primary good feelings of love within a couple; then she introduced the notion of forgiveness.

There were a lot of questions from the audience and she responded with details and practical examples. It was an event that gave hope and new inspiration to many.
