

## 2023 - Year of HOPE

Elisabeth Seidel  
January 28, 2023

May this new year of the Black Rabbit bring new hope to your life!

As we celebrate this new year let's take care of our spiritual life-with inspiration and prayers to make a new world of love. Let love for our neighbors and all humankind be our new lifestyle.

Thinking is praying, said one of my pastors. Today I just made a prayer jar, copying my pastor Sebastian, who has a big one in his church. Besides my daily devotion, and prayers regimen, I can pick a card and send loving thoughts, intentions, and sincere devotion for the prayer requested. I also bought some Bible quotes written in 50 colorful cards, one to read every day. Loving words from above. Positive, loving, sharing, caring words erase the darkness, and bring new hope into the world.

When I visited Sebastian and Mereth's church house, I felt the vibration of true love and care for everyone. It is in giving that we receive.

You can e-mail me your prayer requests. They will go into my prayer jar and be sent to Heaven regularly.

Below you will find the link to watch an introduction to the Rally of Hope. This is an international universal series of events with many high-level influential speakers explaining the deplorable state of our world, and why we should have hope.
