Dear Family and friends,

I want to thank you for all the support, love and care that you have shown my family over the past few months.

To express the depth of gratitude that I have for your kind words, prayer, financial support and just your loving presence is very hard to put into words. I sincerely wanted to write each of you a personal letter, and there are just so many of you it has felt a little overwhelming.

I hope you can read the heart expressed here, as it is for each one of you. The love that I have felt given to my husband, my family, and myself, since the passing of my husband has been truly incredible. I only hope that my gratitude can be enough to be worthy of it.

All my love and heart goes out to each of you. Please, if you need support or help with anything I will always do my best to be a yes.

Jerry Tamayo
