Greetings.

And so, finally, we are at the time of our visitation. True Mother will come to homes all over America tomorrow. Congratulations to all brothers and sisters, we reached and surpassed the goal of 30,000 registration for tomorrow's event. It went so slow in the beginning but picked up momentum each week and finally, we made the goal. As you know, 30,000 was an important number for America.

I believe True Mother will be well pleased with the collective heart of attendance from America and I also believe that great blessings will come from this victory. Besides the 30,000 registrations, we will also offer to True Parents the victory of having over 120 clergy couples who have fulfilled the conditions to be blessed, including the 40 days separation and 3-day ceremony. We really expect that the conditions are made for the Holy Spirit to begin a magnificent work in this country.

Please follow up with your guest. Ask them for their reflection on the event and encourage them to sign up for the various education tracks available. Please send in any reflections which you have and I will try to offer them to True Mother.

Please keep in your prayers that the CARP 7-day workshop taking place right now and especially for the wonderful guests that are there.
