I am currently in Kodiak, Alaska with our Continental Director Dr. Chung Shik Yong. We are at the incredible Ocean. Halle he program which is a great program. I was fortunate to catch a 145 pound halibut which Dr. Yong offered to God in a ceremony on behalf of the American providence.

Then, last night we had an 8.2 earthquake which led to warnings to evacuate as a Tsunami was possible. Many people and to True Parents house which was built on high ground for exactly this situation. Fortunately there was no Tsunami but it gave many the participants quite a story to tell.

This Sunday service will be given at BAFC by Myrna Lapres who just returned from Africa. Maybe she has a story to tell also.

God Bless
