

Bay Area Family Church: Goals to create a healthy and hopeful Heavenly USA

Kevin Thompson
October 2, 2021

I hope you are well. On Tuesday night we had an activation meeting with President Naokimi in which he explained the goals we will focus on until the end of the year. The goals are to create a healthy and hopeful Heavenly USA.

1. Grow the number of active members, donors and leaders in our church community. This is for the growth, health and unity of our members.
2. Help our young people prepare for the Blessing. Preparing the next generation of piety, purity and impact.
3. Get 1200 couples to fulfill the 43 day condition to become a Blessed Family. Through this we can expand God's culture of heart substantially.
4. Introduce 144,000 more people to True Parents and the blessing utilizing Social Media. We want to celebrate and expand the Blessed Family Culture in America.
5. Bring awareness to North/South Korea unity. We want to support True Parent's dream of unifying their homeland.

President Naokimi asked us all to dedicate and declare which one of these goals we will invest in. Of course, we can invest in more than one of the goals but one of them should be our primary goal. Please let me know where you choose to invest.

Next Tuesday at 7:00 pm we will have a training session on using social media to get our message out to more people. Please join that and learn what you can do.

Blessings,

Pastor Thompson
