

Bay Area Family Church: Welcome True Mother To America Once Again

October 29, 2021

Soon it will be December and we will. At that time, December 4th, we will have a Blessing festival in America. Last time we did this, June 5th, we brought many thousands of registered guests. However, we don't know how many actually attended the event and what their experience was.

This time we are aiming for having watch parties. True Mother herself had a watch party at IPEC on June 5th. A watch party allows for an opportunity to connect with people more closely and to have a great experience. Here are the steps to take.

- 1) Identify 3 families that will work together to host a watch party.
- 2) Meet to determine who to invite. Make a list and pray for the people. On the list include members who may have been less active recently and invite them too. The goal is to have 25+ at each watch party and have 400 watch parties across America.
- 3) Decide what elements to have at the event. Location, food before or after, sharing in smaller groups etc.,
- 4) Report your planned watch party to Jennifer Pierce (jpierce@unification.org) right away and then report what happened afterwards.

Let's inspire our True Mother with our activity and support in introducing the blessing and True Parents to many people.

This Sunday we will have a Halloween party for little kids after service. Carving pumpkins and such fun. Kids wearing costumes is fun.

We welcome everyone back to church when you are ready.

God Bless You
