

True Mother is investing everything in the providential reunification of Korea

Kevin Thompson

May 18, 2023

Brothers and sisters,

We finally got back from a momentous trip to Korea. As you are now well aware, it was a truly historic series of events that we believe will be a turning point in God's Providence. America showed up big and the offering which we were able to make contributed to the victory and made True Mother proud and happy. Thank you all for your incredible investment in prayers, donations, and participation. Over 400 from America were to attend in person, in Korea including those beautiful brides and grooms.

I am sure that you have heard of the leadership changes that True Mother made recently. We are not sure how those changes will work out but we trust in True Mother and trust that God is guiding us forward in these next few years of the Providence. Korea is always at the center of providential activities and the reunification of North and South Korea is the primary goal. Therefore, True Mother is investing everything to push for such a victorious conclusion to God's Will on earth. Let us renew our efforts to have America fulfill our role in support of True Parents at this time.

God Bless you,

Kevin and Masako Thompson
