

## **CARP to teach at Be the Example character education program at School**

Akira Watanabe  
September 6, 2017

We met with Mrs. Carmella Bernstein! She has been running a character education program at Cowan Behavior School, teaching at-risk students. Her program is called Be the Example.

We had a really inspiring talk. She has a clear goal, which is to bring God back into the schools. She has the heart to change Las Vegas, America, and the World.

She wants CARP to come teach character education in her class, starting with one lesson this October, and eventually she wants this to spread throughout Las Vegas. We will start by teaching the leadership class in her school.

She really is prepared by God. We feel there is potential to create a HARP-type program in the school district.

She also has the vision to create parenting classes that can be taught in Rec Centers throughout Las Vegas.

This experience has helped us to understand and believe True Mother's words, that we need to find the prepared people who God is working through to achieve Vision 2020
