

## The Logic of Love

### 1 Day Divine Principle Workshop

Vienna, March 19, 2016

“The Logic of Love” -This was the title of a 1-day Divine Principle workshop which was held in cooperation with the Womens’ Federation for World Peace and the Family Federation of Vienna. The participants were new guests as well as guests who have known our movement for some time.

The topics of the lectures were “The origin of all beings”, “Life After Life” “The Human Fall” and “Overview of the Topics for a Two-Day Workshop”.

The lectures were kept relatively short so that after every lecture there was time for discussion in small groups, which the participants enjoyed very much. They shared their experiences with God and the Spirit world and they discussed different aspects of other topics they heard in the lectures.

After lunch the participants had the chance to get to know each other by sharing their experiences and goals in life with each other.

The atmosphere at the workshop was inspiring and heart-warming, so that most of the participants agreed to join a two-day workshop in May.

Among the 25 participants there were 13 guests.
