Ukrainian members held a five-day Divine Principle workshop in the Lviv center from January 2 to 6. There were four participants from the cities of Kyiv, Lviv and Chernigiv.

Two sisters took part for the first time, and for two other sisters the workshop was their kickoff before they entered the winter actionizing program.

The Lviv and Chernigiv city leaders gave the lectures. At the same time they monitored the actionizing activities for the workshop participants and for two second-generation young people who came to get experience in fundraising and witnessing during their winter break from school.
