

## FFWPU Slovakia: Children Summer Camp in Nitra, Slovakia, July 11 - 22, 2022

Milos Klas  
July 22, 2022

This summer, already for the third time, we offered our community centre in the city of Nitra, Slovakia, to one of our blessed families, who run an English language school, for their children's summer camp. Though the first camp happened during the uncertain times of 2020, it was more than a good beginning and this year from the 11th to 22nd of July two weekly camps took place.

These camps are primarily for children of our "outside friends" and work colleagues. Besides children learning some English through many different activities inside and outside of the house, it is also a good help for their working parents because they can leave their children in a safe and nurturing environment of our centre.

They bring their children in the morning and pick them up in the afternoon. On average there were 20 children per week and some of them came because of good experiences from the previous camps.

Parents also expressed their gratitude based on good feedback from their children, who are looking forward to the next year's camp. All of this adds to the fact that parents know our centre as Family Centre that belongs to FFWPU. Though this project is not our direct FFWPU activity, having it on the premises of our centre is a natural way of indirect witnessing by creating or deepening relationships with the parents.
