

STF Europe members had a parents' workshop at Colle Mattia, Rome, Italy

Martine Masner

April 19, 2017

In the workshop site of Colle Mattia, Italy, the STF members had a parents' workshop and they prepared their second witnessing condition (starting on April 19 to May 11) in Kosovo, Romania, Manchester UK and in four cities of Albania.

There are 46 STF members this year, including 1st, 2nd and 3rd year.

These young people are very enthusiastic.

They have a very good internal standard and want to unite with True Mother, to witness to the world! They listened to presentations about the value of witnessing and what witnessing can bring for their personal growth.

There were many questions after, how to witness, especially, how to guide the guests into a deeper understanding of the Principle.
