

## The collapse of Communism in North Korea is happening this year, 2021

Douglas Moriarty  
March 15, 2021

According to the formula spoken of by Reverend Sun Myung Moon of 70+3 , the 70 years under atheistic communism 1948-2018 + 3 =2021 is now unraveling in its grip over the people, even the soldiers of North Korea.

This is how, why and where it is starting just inside of North Korea.

Far North East of that in Mussan, North Korea a mining town is another massive protest then happened.

This will likely soon spread to Manchurian Area with large Korean DNA citizens who technically are part of China CCP.

But their culture is toward Korea; they also led the revolt against the Japanese in the 1930's.

The Manchurians can be compared to the Polish people who were surrounded by Germany and Russia then also rose up against communism in the late 1980's and were led to freedom by Union leader Lech Walesa.

Leading to the collapse of the Berlin Wall in 1989, then the Soviet Union in 1991.

The number of parallels are amazing between the western collapse of Communism and the Eastern collapse of communism now happening.

They need our sincere prayers.

Their victory is God's Victory.

The world is rapidly changing.

True Mother's leadership is happening at a very rapid pace.

Vision 2027 is more than a revival; it will be like a world-wide genesis of new life on earth in every way.

The next part of the 21st century will bring much more expansion and healing.

Exactly as God and Divine Principle spoke of in the last days; THE FIRST DAYS.
