

# Meeting with the Armenian Diaspora in Yekaterinburg

*Evgeniy Skvortsov - March 11, 2019*

In order to be victorious at Heavenly Tribal Messiahship and expand the scale of Family Festivals, members of the FFWPU are developing relations with representatives of the national diasporas of Yekaterinburg. On March 11, the Armenian diaspora invited us to the premiere of the documentaries "Ural Settlement" and "66/85," released on the 85th anniversary of the Sverdlovsk region's establishment.

An orchestra played in the lobby, and a light burned out in the hall. And when the artists started performing, the audience, without saying a word, turned on the flashlights of their smartphones. It was a very touching moment of the evening.

The films provoked mixed reactions, but they were interesting. We continued to build connections, learning about new events and the difficult relations between certain nationalities. There is something to work on in terms of reconciliation and intercultural dialogue.
