The 3 Blessings that God gave to humankind

Living the 3 Blessings: a divine calling - God's design for fulfillment and happiness

Rev. Demian Dunkley

Part 2 of message from Rev. Demian Dunkley, president of the [Family Federation](#) of the USA, transcribed from a video that is part of a series of lectures titled "Discourse on [True Mother's](#) Revelations" posted on the [education site of the Family Federation of the USA](#) February 2025

See [part 1](#)

Let's look at scripture. In Genesis, we can see that when [God](#) speaks to his children, he blesses them, saying,

"Be fruitful and multiply and fill the earth and subdue it, and have dominion over the fish in the sea, and over all the birds in the air, and over every living thing that moves upon the earth." (Genesis 1;28)

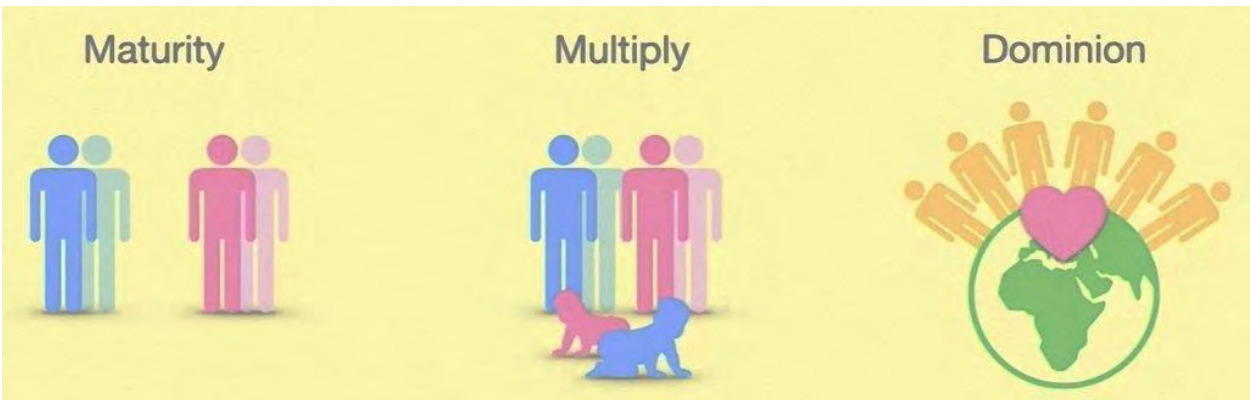

Wow. This is known as the three blessings, three commandments, three great blessings.

And it shows [God's](#) love and desire for us human beings. Let's unpack it.

These three blessings correspond to three major areas in our life.

- Our personal character, which is rooted in [our relationship with God](#).
- Our relationships with others, which is first rooted in our own loving family relationships.
- Our relationship with the world, which has been given to us to both enjoy and take care of.

The fulfillment of those three great blessings is the fulfillment of these three things. This is the ideal, this is the dream. This is the blueprint of the dream, right?

The 3 Blessings that God gave to humankind

[God](#) imagined us to be both physically and spiritually mature and beautiful.

Maturity

Consistency, (Words & Deeds)
Autonomy and Self-management
Identity as God's Son or Daughter

The 1st Blessing that God gave to humankind

[God](#) has blessed us to join in marriage and form beautiful couples, both physically and spiritually intertwined in joyful, harmonious relationships. And from there to multiply an awesome, beautiful family that represents [God](#)'s family.

And as such, we have been given the blessing to steward the world, to enjoy the world, to love the world, to subdue it with love, to understand all of the intricate laws that [God](#) has manifested in everything.

And then to be able to govern over those things for the benefit of humanity, for the benefit of the world, for the benefit of [God](#). Because [God](#) wants to enjoy all those things through us.

Through these three major areas of our experience, we learn to develop our own unique heart, mind, and will. Because [God](#) designed us with this purpose.

We're not going to feel entirely fulfilled without experiencing these fundamental blessings. That's why you're never going to be happy if we don't have a [relationship with God](#). And we're never going to

be happy if we don't form a family. And we're never going to be happy unless we figure out how to live in a harmonious relationship with the planet, right?

Maturity means consistency in word and deed, autonomy, self-management, and my true identity as [God](#)'s son or daughter.

Multiply

Loving and investing in others
Develop Parental Heart, Like God's

The 2nd Blessing that God gave to humankind

And multiply means loving and investing in others. Of course, eventually with your spouse and with your children, developing a parental heart like [God](#).

But we're able to relate with any human being of any age on the planet in a harmonious and loving and respectful relationship. That's the essence of horizontal relationships.

And actually, in these first two, you see that which Jesus simplified all the laws above all others, everything hangs on these two things.

Love life, love [God](#), and love your brother, Love humanity, love [God](#) and love one another.

And ultimately, as an extension of these two primary axes of love, engagement, growth, development, experience and joy, centering on these two things, everything is set for us to be able to steward lovingly over this incredible planet that [God](#) has given us.

Dominion

Creativity and Ingenuity
Managing the Environment
Creative Purpose and Results

The 3rd Blessing that God gave to humankind

This includes creativity, ingenuity and managing the environment, creating creative purpose and results, right?

In practical terms, this is what you study for, this is what you exercise for, this is what you train your body for, train your brain for, train and learn all of the skill sets that you uniquely feel called to develop.

Beyond the basic skills, what are the unique things that you feel excited to develop? What are the unique things that you want to do?

This is your blessing. From the beginning of humankind, this has been our blessing. But because of fallen history, because of the fall, we fell into such dark corners of reality that we created.

These weren't dark corners that [God](#) created. We created these things. And, and [God](#)'s been longing to bring us back to this blessing. And this is where we're at, right?

In order to achieve the foundation for these three things, [God](#) needed to secure first his children, his representatives, that would mature their divine character and build the first family of [God's lineage](#).

And all of this would have been just a natural evolution of humanity, development of humanity. So how would [God](#) do this? This would be [God's](#) blueprint.

To be continued. Part 3 coming soon.

God’s Ultimate Dream – To Become A Parent

• February 24, 2025 • Knut Holdhus

Demian Dunkley explains what God's ultimate dream has been from the very beginning, and we play a key role to make that dream come true

of Creation that I think are essential to help us all understand what Mother is saying. Let's start with Mother's words. She said,

"God, our Creator, has a dream."

Originally, the Creator wanted to become the True Parent of humankind. And Heavenly Parent created all things in heaven and on earth.

True Mother starts many of her speeches here, starting right there: What is God's dream?

I imagine that Mother starts every day and ends every day, starts every waking minute of her life resonating, thinking about God's dream and feeling desperate to realize that dream – feeling desperate to remove the obstacles, to diminish the gaps between where we are today and realizing that dream.

She starts every speech almost, touching upon God's dream.

First, let's work backwards. In order to give birth to His children, God first created an environment for His children to live. That means the substantial universe was created for the purpose of human life. Think about that.

Illustration used by Rev. Dunkley during his lecture. Image: FFWPU

God wanted to give birth to humanity. But in order to give birth to humanity, He needed a world. In order to create that world, He needed all of creation. In order to make all of creation, He needed to create centered on a law or a principle, right?

Before He could create the universe, God created the principles of creation. And it is through these principles that everything would be created and maintained. And these are the principles that govern all things.

Before these principles were created, there's just God.

But now let's look at it in another way. God is a spiritual being, a harmonious being with both male and female qualities.

But he longed to be a Parent. That is God's dream, to be a Parent, to have children and to live with His children in a beautiful world. He longed to have children, therefore, with whom He could relate. He dreamed of becoming a True Parent of substance, not just spiritual, but physical as well.

In order for God to become a Parent, God needs children. But not just any children. God needs children that truly resemble God's nature. Okay?

In order to resemble God's nature, we need to grow our divine nature, our godly nature. Wouldn't you agree?

You might have a very handsome 25-year-old man who looks like he was chiseled by Michelangelo himself. But if that man has a heart of selfishness, of greed, of evil of any kind, you can't say that that is a representative of God, or that he is carrying the characteristics of God's nature. Can you? You couldn't really call that person a son that resembles his Father.

In order for us to resemble our godly nature, we need to grow according to the same principles of creation that govern all things. Let's look at some of these basic principles.

Every human being is both physical and spiritual. I think most of us agree, right? Every being is both physical and spiritual.

And we can see that there are three stages of life. There's life in the womb, life on earth, and eternal life in the spirit world.

We do not live forever in substance, but we do live forever in spirit. Our earthly life is finite and very important. Our eternal life is infinite, but our physical life is finite.

Spirit and body.
Illustration used by Rev. Dunkley during his lecture. Image: [FFWPU](#)

And it's during that time that we need to grow our divine nature, which is our eternal spirit, to live in the spirit world forever.

3 life stages. Illustration used by Rev. Dunkley during his lecture. Image: [FFWPU](#)

Just as a nine-month-old baby has had time in the womb to physically develop all of the characteristics to live a healthy life on the planet, on

Growth to maturity. Illustration used by Rev. Dunkley during his lecture. Image: [FFWPU](#)

earth, our spirit lives within us during our time on earth and is growing within us to arrive at a level of maturity that can live in joy and happiness in the eternal physical world. Right? Doesn't that make sense?

Just as it takes time for the physical body to grow, it takes time for the spiritual body to grow. It is the same for both men and women, by the way.

Whereas our physical bodies grow autonomously with food and air and rest, our spiritual bodies require actions in accordance with God's heart and will.

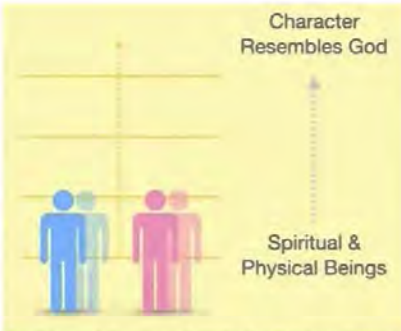

In order to become godly people, we need to make godly choices. Isn't that fair?

That means we have a responsibility that is different from all other things in creation. We're not just created beings that become great just because our software made us that way.

We're actually growing **our relationship with God**. And as we grow **our relationship with God**, we are growing our spirit. We're growing **our relationship with God** in a parent-child-relationship. That's our original nature – children of God.

It's a very special and unique blessing that we have been given, that human beings have been given above all other beings in the universe.

Some people think that perhaps angels are higher, or really fast-running animals are higher or of greater importance. But look, this isn't about looking down on anything in creation. In fact, it is our role as godly children to love all things and honor all things in creation. But we are to do so having matured the characteristics of our Parent, our Heavenly Parent, God.

Man and woman growing to develop character that resembles God. Illustration used by Rev. Dunkley during his lecture. Image: [FFWPU](#)

Both the men in the world and the women in the world have a responsibility to grow not only our physical bodies and take care of our physical health. But we have a responsibility and blessing to grow our spiritual bodies and take care of our spiritual health so that we can become truly spiritual and physical beings that resemble God's character.
