On Sunday, May 19, 2019, Montreal Tribal Messiahs held an Interfaith Peace Blessing and Celebration of True Love on the occasion of International Day of the Family by the United Nations. Forty couples from a variety of backgrounds and traditions attended including the borough Mayor and also two city councilors.

Part of the program included honoring a couple who had been married for 66 years. They were the celebrated as the heroes of our event for having remained faithful to each other for the longest time.

Many thanks to all the volunteers and activists who continue to network and reach out.
