June 14, 2018

Families in the tristate area gathered at East Garden on June 14 to celebrate the 56th Day of All True Things. Even on a weekday, many Unificationists, along with their children, joined to present their own personal offerings. East Garden set up a sensational offering table and delivered a beautiful service. The table represented the hearts of the brothers and sisters who helped prepare it in order to honor God and True Parents.

Family Federation for a Heavenly USA President Rev. Richard Buessing delivered the main address at East Garden. He said, "We tend to operate mechanically in big, industrial cities, therefore, it is important we live our lives in nature. It is easy to neglect the little things in this world that God has created. Father once said, 'To love nature is to love people, and to love people is to love God.' No one loved nature more than True Father, and it is important to have hobbies centered on nature."

Rev. Buessing's wife, Marjorie Buessing, said, "It was impressive how every race and religion was represented as well as all physical things of creation, which demonstrates True Parents' efforts to be on the national level."
