

UPF Theme meeting – “The Spirit World and Myself”

Oslo, Norway, 8. December 2013

The topic of the last Sunday's meeting was "The Spiritual World and Myself". Knut Holdhus welcomed the audience and bound the program together. Steinar Murud gave a Principle Spirit World and perspective about our relationship with the spiritual world. Berit and Lisa (mother and daughter), performed a couple of songs. Our main guest was a medium and healer. After a short testimony of her life, she conveyed some

general guidance to persons in the audience. As she experienced ancestors in the room she conveyed their general message or greeting to the respective member. Many questions followed, and during the final coffee and refreshments-time many received some more personal guidance.

All in all it was an unusual, stimulating and most interesting evening.
