On March 16, we had a UPF meeting in the Embassy of Peace in Brezovica. We had 21 guests, among them one parliament member, a princess from Nigeria, president of local Esperanto association etc. At the meeting Ji Suk Baek gave a report about the World Summit in Korea and invited parliament member Mr. Bunjac to give a testimony about the summit in Korea. He gave a very inspiring testimony about the events in Korea and specially about meeting with True Mother. He was very moved by the speech of True Mother and said that the purpose of his visit was actually to meet True Mother, He could see that True Mother is a very special person and her speech was honest and original which he didn't hear at any other places.

All guests and members were very inspired by his testimony. After that we promoted two new AFP, a princess from Nigeria, president of international woman club, and a famous local antique artist and a humanitarian worker. Guests and members stayed late with Korean dinner.
