

Samuel Swearson of the University of Iowa Receives Hyo Jeong Scholarship

Hyungtae Ha
February 26, 2017

On Sunday, February 26, District 8 Pastor Rev. Hyungtae Ha visited the Iowa Unificationist community with his family to give the Sunday a sermon and present the [Hyo Jeong Scholarship](#) to the [local recipient](#), Samuel Swearson, who is majoring in Cellular Biomedical Engineering at the University of Iowa.

“This is the closest encounter that I have had with True Parents,” he said in a beautiful, hand-written letter to True Mother. “I feel that with this scholarship, Heaven is truly at my side.

“Since I was eight years old, I was determined to become a doctor. My motive for this career is to be the steward of God’s temple, the human body. The

research of regenerative therapy has the potential to heal the physical body by means never before seen. It is through this profession that I am devoted to practicing the principle of restoration, and it is this research that is my greatest offering to True Parents.”
