

## FFWPU Vicente Casares, Canuelas, Argentina's Social Service and Recreation Program

Carlos Vargas  
May 28, 2023

On May 27 and 28, 2023, we have conducted a Social Service and recreational activities in one of the Properties of the Janul Pumonim's Holy Community Argentina in Vicente Casares, Cañuelas.

Through this program which we hold several times a year, our youth carry out service activities such as care maintenance tasks on the properties, cleaning, spare parts, painting, etc. in morning. And later in the afternoon, sports and recreational activities are carried out, all with the aim of making young people feel that they are the owners of the place, caring for public properties with love, and recreational activities are carried out with the aim of attracting new friends and guests to that they later participate in seminars or other activities of the Holy Community.

On this occasion, a total of 48 people participated, among which parents of young people who are recently joining Sunghwa activities were also accompanying and supporting. This activity has also been supported by the Mamani Sosa Family Tribal Messianism activities, since several of the new youngsters along with their parents have been the result of their activities.

Young people from CARP and Sunghwa were present within the organizational staff.
