After their 3 Days seminar, 14 members of CARP-Benin conducted series of service for peace at the Abomey-Calavi Campus on January 10, 2018. They cleaned the campus including the area around the rectorate, bus stops, public squares and restaurants.

Through this activity, CARP members have had a great impact on university officials. This activity influenced a good number of students who will very soon participate at one-day and seven-day Divine Principle seminars.
