This time the second generations of Benin served at the Chanyang Team. In addition, for the entertainment the second generations from Benin and Togo prepared nice programs.

The atmosphere was elevated and all the blessed families were happy. The organization was much better than the first event. In addition, there were more education programs.

We are very grateful to True Parents and True Mother to create Regional Branches of Hyojeong Cheonbo Training.

Reflections

The seminar was very special, wonderful and deep and the atmosphere was elevated. Blessed Families expressed their gratitude for True Parents grace, deep love and blessings. They feel rebirth, energy and new determination to invest themselves more strongly for the Providence. There were many testimonies and spiritual experiences.

The CheonBo event in Benin was successful and the organizer Committee is determined to hold the best HJ Cheonbo workshop in November 2019.
