October 17, 2019

In a joint event with YSP (Youth and Students for Peace), UPF (Universal Peace Federation) and an organisation of young Syrians: Philosophy for Peace, the latter brought a Syrian poet, who shared his experience coming to Austria, after years of travelling.

As this evening was organised in cooperation with YSP, many young people came, including students from the University. People of different cultures came closer to each other through this experience.
