

Kloten going from Strength to Strength

Kloten, Sweden, 1. August 2014

11 years ago, the Swedish family purchased a large and rather dilapidated house in the heart of the forest, overlooking a beautiful lake, to be made as an educational centre and retreat for our members and guests. Now, after much investment by everyone, we have a much loved and much used spiritual retreat which has just been repainted, to continue our ongoing projects.

Recently, we put a new roof on the barn and converted it to be used as a lecture hall to accommodate more than 60 people. Now we are renovating a room to make it into a small self contained flat with all mod cons so that anyone who wants to spend a quiet time with their family can get away from it all and come and recharge their spiritual batteries.

Next weekend we are holding our 4th European workshop at Kloten, and in the meantime welcome any enquiries from any members and guests who would like to experience the Kingdom of Heaven.
