

2nd Anniversary of the Universal Seungwha of Sun Myung Moon

Brussels, Belgium, 31. August 2014

Last Sunday, together with a sizeable number of brothers and sisters from the north of France and Luxembourg we gathered to share a report on the events at True Father's second Seungwha anniversary and summit conference relayed principally by French national leader Mr Jean François Moulinet with added support from Mr Paul Frank from Luxembourg.

Apart from getting a good glimpse of the various vips in attendance, mixed with various statistics and

strategies as well as encouragement to fulfil the tribal messiah mission, we were reminded again of True Mother's main spirit of 'be rich, build a noble family and be healthy'. We enjoyed to see the pictures of True Mother's physical exercise routine which are apparently done with some upbeat Korean 'Bounce' music.

Afterward we all enjoyed a delicious buffet lunch and celebrated joyously at least six birthdays for both children and some adults.
