

BLESSED FAMILY GATHERING IN VOGHERA, ITALY

On 15th August, Family Federation for World Peace organized in Voghera, Italy a gathering for blessed families, friends and guests. The program started with a greeting and a prayer by NL Gukson Capone recalling the key role that True Parent's had in our life and that we are the continuation of their dream. A based barbecue meal was shared and it was nice to see many people that we don't often meet and also it was a chance to make new friendship and connection.

In the afternoon there was time to do different activities like: going to the pool for the kids, a table soccer's tournament, playing ping pong or group dancing. There were in total 76 people (60 adults and 16 kids) coming from different countries as well.

For many years we have been holding this event once a year and is always really successful, it helps to create and re-establish heartistic connection with one another.

Special thanks to Matteo Corvino in being the DJ and choosing the right music, Daniela Andreozzi for helping in organizing the event and deeply grateful to the family Chianura-Kanno to be our host and their attitude of being always available.
