We conducted a Martial Arts education program on September 23, 2023, in Itacurubi de la Cordillera, Paraguay titled "The three moral goals of life". At this event, Mr. Gustavo Giuliano, director of Heavenly Tribal Messiah Paraguay and Sub-region 2 in Latin America gave a lecture for a group of parents and students of the Kung Fu School of Master Omar Medina, who is a central blessed family and spiritual son of Master Gustavo.

During the event, Master Gustavo supported the Kung Fu classes by teaching about the circular movements of the Tong-II Moo-do style.

Master Gustavo along with his wife Roswitha Dueck de Giuliano are doing Heavenly Tribal work in Itacurubi de la Cordillera, where there are two couples who are preparing for the blessing, the Parents and son of the Gamarra Family.

A radio station director also participated in the education program. After listening carefully to the lecture, he said: "This content must be known throughout the city. Together with Master Omar, I am going to prepare a one-day seminar and we will invite many outstanding people and parents."

Master Omar lives in San Antonio, Central Department, and travels almost 100 km every Thursday to teach Kung Fu classes he also teaches at the Guairá University in the Sports Sciences degree.

We hope to continue to expand the good work of Heavenly Tribal Messiah in every possible way including Martial Arts in the future.
