January 29, 2018

On January 29th, 2018 the Israeli family held the Inauguration of Youth and Students for Peace Israel. Eight incumbent Knesset members and one Dutch parliamentarian gave their full support and encouragement to the establishment of the Israeli chapter of YSP.

Among the 80 leaders in attendance, many were young professionals, parliamentary assistants and students.

The YSP video gave everyone a clear understanding about True Parents as the founders and was followed by a mission statement power point presentation given by the newly appointed President and vice president of YSP Israel. The Middle East YSP president explained True Mother's thought regarding attaining peace by the logic of love. The key note speech was given by the Middle east regional president who reported about True Mother's victory in Senegal.

All members offered conditions in support of the event, but the young leaders should be especially noted as they were the main driving force, opening the door for witnessing, just as True Parents have predicted.
