

Celebration of Heavenly Parent Day

Madrid, Spain, 19. February 2015

Around 40 brothers and sisters gathered in our center at 7.00 in the morning to celebrate the 48th Heavenly Parent Day and True Parent's Birthday. After the pledge we heard a few words about the difficulties True Parents have gone in order to proclaim the first God's Day in 1968, and about our privilege, thanks to the teachings of True

Parents, to have the possibility to deepen our relationship with Heavenly Parent. This has been the desire of so many saints and different religious people during the whole history of humanity. We then had breakfast together. We continued the celebration on Sunday afternoon with a few words of

inspiration about God's day and a familiar evening with songs, poetry and different performances. The room was totally packed, a few guests came also. It has been a great time together offering our talents to our Heavenly Parent and to our brothers and sisters and sharing the same feeling of a big family.
