

In Valencia, Spain We Organized a Public DP Lecture About Spiritual World

Maryvonne Jamois
November 16, 2018

We organized in a hotel in Valencia a Public Divine Principle Lecture about the spiritual world: "How to value life on earth, by understanding the beyond".

Despite the huge amount of water that was falling this afternoon, something very unusual in Valencia, 9 people could come to hear about our teachings.

Mario Magaz who was the lecturer explained the three steps of life, and how our life on earth is a preparation for our life in spiritual world, and the importance to develop our capacity to love.

Some of them shared afterwards their experiences.

At the end we had a toast for peace, reconciliation and true love, and 8 of them received happily holy juice.

We could also give some booklets with True Parent's words.
